Dear Architecture lovers,

Do you share our interest for all things architecture, design and built environment? Have you ever wondered about a particular building in Macau, wished to know more about it and how it came to be, but then couldn't get inside? Or are you passionate about Macau's rich history and always wished to share it with others? We summon you to take this once-in-a-lifetime opportunity to be a part of this international event that allows you all that and more.

Join as an OHM Volunteer [here](#) until August 24, and spend a weekend with people that share your love for Macau and its built environment. We welcome you to take part of this experience with us and get a chance to be connected to an international network of architectural patrimony ambassadors!

Give us your insight to Macau's architecture best kept secrets [here](#) until August 17. Let us know what buildings or sites of the city you really want to see included at this year's OHM edition. Your opinion is very important to us!
